June 21, 2005

Hello.

Docket 105-15-1

Mandatory Animal ID Program.

I am writting you today Concerning this Animal ID Program.

I am asking you for "what?" Are you doing this? Who benefits? the tax payer? the animal owner? It doesn't do the root of the problem any good.

It doesn't Correct the mineral deficiency that Causes "Mad Cow disease".

It places more burdens on the animal owners. It takes away more of this Countrys freedom. "It dumbs the people" gets them to depend on a machine, Instead of our Lord that formed animals in the first place.

It puts us 1 step away from doing some to the "human population". Which will put us under the wrath of God. "In stead of a Blessing" We will be Blessed, only if we deal fairly.

"Please read "Revelation Chapter 14"

RECEIVED

JUN 21 2005

Please understand, we have respect for our Superiors, And do think of you often. And never get around to saying, thank you! If then some one at least reads this letter. then thanks to you!

We, in this area, have lived with & own Animals all of our 60 years of life. And respect them, Isn't there some other method?

Does this program come from an Animal owner? Does he or she know Any thing about Animals?

All I can do is ask, "Please" be honest with ourselves, And take notice.

If we don't, we could be very sorry, "The time is now." this was once a "Great Nation," Are we doing all we can to keep it that way.

It sure would be a surprise to receive, a short note from you.

there are thousands of Animal owners out here or there, that do not want to see you do this.

You wont be hearing from them. They wont be walking the streets looking for you. I know they are out here in the Country. There Voices hardly ever heard by our Superiors.

We can Pray for you,
And I'm only asking,

Sincerely,

Henry C. Byler
