

SUPPLEMENTAL BASIS STATEMENT

*CHAPTER 110
AMBIENT AIR QUALITY STANDARDS*

List of Commenters

- (1) Brendan McCahill
Region I
U.S. Environmental Protection Agency

Commenter (1) suggests the Department should remove all references to total suspended particulates in Chapter 110. In Section 11(B) Exclusions From the Increment, the Department should amend the term total suspended particulate to read particulate matter (measured as PM_{10}).

Response: The Department agrees and has removed all references to total suspended particulates. To better clarify the phrase "particulate matter (measured as PM_{10})", the Department has replaced this phrase with PM_{10} .
